

In the summer of 2024, the Florida Department of Environmental Protection released their "Great Outdoors Initiative" plans that called for the building of hotels, golf courses, and more in our State Parks.

The misguided and inappropriate plans were opposed by Floridians and lawmakers across the political spectrum. We must protect and conserve our State Parks which were paid for with tax dollars to preserve their natural beauty in perpetuity.

MAKE OUR PARKS BETTER

I will **SUPPORT** legislation or budget items that protect and conserve State Parks.

PROTECT OUR PARKS

I will **NOT SUPPORT** legislation or any budget that funds developing Florida's State Parks with hotels, golf courses, sports facilities, or any other inappropriate addition that is contrary to keeping Florida State parks wild.
